The executive council of the American Scientific Affiliation did a mathematical analysis of the principals of probability of all these prophecies being fulfilled in one man. Probability of just the first 8 prophecies being fulfilled in one man = one in 10<sup>17</sup> (10 with 17 zeros). Probability for just the first 48 = one in 10<sup>157</sup> (10 with 157 zeros). Seeing how unlikely it was to have happened all by chance, they didn't even bother to do the calculation for all 61!
